

Have you ever wanted to start your own trading business but didn't know what it involved or where to start? Do you wonder why franchised businesses are much more likely to succeed than non-franchised ones? 

The answer is in the planning; a franchised business has operational manuals and systems in place for every aspect of the business. The owners know that every possible question has already been asked and answered about how they should run the business. 

In this book all the techniques, planning, business design, and trading system development processes that have been used to make PMKing Trading successful are revealed in complete and full detail. 

This book, as the title implies, is a trading book that is a truly complete guide to what it takes to be successful in the trading business. It should quickly come to be on every trader's "Must Read" list. 

Don't even think about starting your own trading business without reading what this book has to say first.
